Category A – Memorial is unsafe and poses a risk and will require immediate attention to make safe and/or protect from the public.

Category B – Memorial is safe but there are minor concerns and it should be reassessed in 12 months' time to ensure it has not deteriorated further.

Category C – Memorial is Safe and should be re-inspected in 5 years as part of the next round of inspections or as part of any other check that may occur, for example when checking memorials around a planned burial ahead of excavation of the grave.
